

PRODUCT RECALL

APPLETISER 6-PACK OF 250ml CANS

We are recalling a very small number of multipacks of Appletiser 6 x 250ml cans due to the presence of an elevated level of chlorate in the product.

The cans impacted are identified by a production code printed on their base – which will be from 328 GE to 338 GE – and best before dates of 30 November 2025 and 31 December 2025.

No other Appletiser products are affected by this issue.

If you have any of these cans, please do not drink them. Instead, call 0800 227711 and a member of our team will be able to help.

The quality and safety of our products is our top priority. We're sorry that, on this occasion, a small number of our products have not met our high standards.

PRODUCT RECALL FROM RESTAURANTS ONLY
330ml “tall” cans of Coca-Cola Original Taste, Coca-Cola Zero Sugar, Diet Coke and Sprite Zero

Product details:

Product names	Pack sizes	Batch Numbers	Best Before dates
Coca-Cola	330ml tall can	0008912462	30 November 2025
Diet Coke	330ml tall can	0008913820	31 May 2025
Coca-Cola Zero	330ml tall can	0008913954	31 May 2025
Sprite Zero	330ml tall can	0008913247	30 June 2025

We are recalling a small amount of tall, imported cans of Coca-Cola Original Taste, Coca-Cola Zero Sugar, Diet Coke and Sprite Zero, which were sent only to cafes and restaurants.

All affected cans have the production codes from 328 GE to 338 GE, which can be found on the base of the can.

If you have any of these cans, please do not drink them. Instead, call 0800 227711 and a member of our team will be able to help.

The quality and safety of our products is our top priority. We're sorry that, on this occasion, a small number of our products have not met our high standards.
